- Summary: A command-line application that accepts user input when prompted for information about the application repository and a high-quality, professional README.md is generated.

- Role: Sole Author
- Tools: Node.js, HTML, JS

Professional Experience

Open Roads (Australia) | WordPress Developer

June 2020 – October 2020

- **Task:** To create a responsive retail website using WordPress.
- **Action:** According to the requirements, selected the theme Astra Pro, customized the WooCommerce pages by creating custom templates for each product page, and render products on each product page to view the results as per the filter.
- **Result:** The website worked smoothly for all the WooCommerce pages.

Translator / Interpreter | ABC International Services Trust (Australia) | Adelaide, Australia

Dec 2016 – Present

- **Task:** To provide oral and written interpretation services to the clients of government and non-government service providers.
- **Action:** Interpreted questions, answers, and concerns of LEP clients. Translated written documents and instructions for the clients. Articulated and responded to cultural differences and served as a cultural mediator. Adapted translations as per the discussions with client requirements and to the grade levels as instructed.
- **Result:** Received appreciation for my work many times from Lawyers/Doctors.
